GIVING HOMES A QUALITY FINISH THAT IS SAFE AND SECURE, WITHOUT COMPROMISING ON AESTHETIC APPEAL.
INNOVATION AND QUALITY IS AT THE HEART OF EVERYTHING WE DO. OUR PRODUCT RANGE IS MANUFACTURED USING THE MOST UP TO DATE MANUFACTURING TECHNIQUES, WHICH ENSURE THAT OUR CUSTOMERS GET THE NEXT GENERATION IN WINDOWS AND DOORS.

THE ARCADIA COMPOSITE DOOR COLLECTION OFFERS HOME OWNERS A DOOR COMPOSED OF QUALITY, DURABLE AND THERMALLY EFFICIENT MATERIALS.

ADDED TO THAT IS A RANGE OF TRADITIONAL AND CONTEMPORARY DOORS STYLES, UNIQUE AND HANDCRAFTED GLASS DESIGNS, AND GENUINE GRAIN-EFFECT COLOUR FINISHES.

Enhance your home with a strong, secure and stylish Arcadia Composite Door.
STRENGTH & DURABILITY
DOOR MATERIALS
Arcadia Composite Doors are constructed from high density CFC-free polyurethane foam and layers of laminated veneered lumber and finished with GRP (glass-reinforced polyester) inner and outer skins.

DOOR FEATURES
Available in 44mm or 70mm door leaf thickness, Arcadia Composite Doors are extremely durable and robust. For extra safety, the door glazing units may be toughened or laminated.

DOOR FRAMES
Composite door leafs are fitted to our high performance Inliten 70mm PVCu door frames. Inliten frames are backed by an exclusive 10 year product performance guarantee.

DOOR PERFORMANCE
All components of the composite door are designed for enhanced durability, including: weather-resistant polymer materials, advanced hardware systems and high performance glazing units.

STRENGTH & DURABILITY
Arcadia Composite Doors are available as 44mm single or 70mm double rebated doors, ensuring there is an option available to suit all applications.

Advanced manufacturing techniques ensure that all Arcadia Composite Doors are extremely robust, durable and long lasting. Door leafs are backed by a 10 year performance guarantee.
Door shown is a 70mm double rebate.
SECURITY

Keeping your home safe and secure is of paramount importance, which is why all Arcadia Composite Doors are designed for enhanced security.

Only the toughest materials are used to form our door leafs, making the doors virtually impact resistant.

All doors feature multi-point locking mechanisms and hardware as standard, and are fitted to ultra-strong Inliten door frames.

SECURITY STANDARDS
Arcadia Composite Doors are tested to the stringent standard, PAS 24. A range of additional security options are also available which meet the specifications required by ‘Secured by Design’.

DOOR HARDWARE
Composite doors are fitted with advanced locking systems, strong hinges and quality handles as standard. All components are specially selected to ensure maximum, long term performance.

HOOK LOCKS
For extra security, a hook lock option is available. ‘Hooks’ are situated at the top and bottom of the locking system and slot firmly and securely into keeps located on the door frame.

ADJUSTABLE HINGES
To further enhance the security of your door, we use a range of adjustable hinges, offering enhanced strength and security, whilst still maintaining the aesthetic appeal of the door.
DOOR U-VALUES
Our range of glazed composite doors achieve a U-value of 1.6 W/m²K. If you select a solid/unglazed door style, U-values as low as 0.9 W/m²K can be achieved.

GLAZING UNITS
A range of double and triple glazed units are available, featuring high performance coated glass. All glazing units offer excellent thermal insulation, weather resistance and noise reduction.

HEAT LOSS
The image on the left shows an Arcadia Composite Door, the blue areas indicating lower heat loss. Compare this to the image on the right of a timber door, red areas indicating a high rate of heat loss.

ENVIRONMENTAL
Arcadia Composite Doors help reduce harmful carbon emissions. In fact, our doors achieve a ‘Global Warming Potential’ score of less than five, and an ‘Ozone Depletion Potential’ score of zero.

ENERGY EFFICIENCY
Arcadia Composite Doors are designed for maximum thermal insulation, ensuring energy is retained inside the home.

All doors and glazing units within the Arcadia Composite collection offer excellent energy efficiency properties; helping you save on home heating bills and reducing carbon emissions.
COLOUR CHOICE
Choose from one of our popular door colour finishes such as warm oak or sleek black, or choose from our extensive range of RAL spray painted finishes.

DECORATIVE GLASS
Each decorative glass unit is handcrafted in our in-house glass studio and includes a range of bevel, lead, resin and sandblast designs. We also offer a range of textured and obscure glass options.

GLAZING OPTIONS
Door glazing units are available with double (24mm) or triple (50mm) glazing. For extra thermal performance, decorative designs in triple glazed units are fitted to the middle pane.

DOOR THRESHOLDS
Composite doors are available with standard PVCu thresholds or a ‘Stormguard’ low threshold for excellent weather protection.

CHOICE
The Arcadia Composite Door range is designed for high aesthetic appeal. Doors feature a genuine grain-effect finish, giving the appearance of a traditional timber door whilst delivering the benefits of modern materials.

Personalise your door with a colour of your choice, including contemporary RAL colour options, or a bespoke, handcrafted decorative glass design.
DOOR STYLES
GLAZED DOORS
The Arcadia Composite collection features a range of glazed door styles, from dual glass panels (New York) to arched glazed options (Rio, Moscow).

SOLID DOORS
A range of solid, unglazed door style options are available (Boston, London), suitable for a range of applications.

COTTAGE STYLE
Featuring a ‘tongue and groove’ effect, cottage style doors are available in a range of classic (Oxford) and modern (Seattle) door styles.

LETTERBOX
Letterboxes are fitted centrally on solid and glazed door styles as standard (except Lisbon – no letterbox option). On cottage styles, the letterbox can be fitted centrally or at the bottom depending on style.

DOOR STYLES
Arcadia Composite Doors are available as single or double rebate doors.

There is a choice of over 16 different styles from traditional cottage style doors to modern contemporary styles.

Matching sidelight glass is available on the Classic glass range (not available with Deluxe glass range).
NEW YORK
